

CMPT 371
Team 3
January 30, 2017

Meeting 5:00 pm – 6:00 pm

Purpose of meeting: Receive a tour of RUH's radiology department, courtesy of Dr. Paul Babyn. Allow the team to view a real radiologist's workstation and clarify the workflow for the user of the software.

Group Members Present: Janelle, Mackenzie, Kyle, Heramb, Ix, Brianne, Sylvia, Kevin, Evan

Meeting Location: Royal University Hospital

Summary:

- Met with Mike from Luxsonic and Dr. Paul Babyn. Received a brief tour of the medical imaging facilities at RUH.
- Briefly explained the scope and goals of the project.
- Demoed a radiology workstation
 - Opening multiple images
 - Details on viewing patient information while examining images
 - How DICOM aggregates multiple images, case reports and patient data
 - Potential overlooked features: annotations on images
 - How important is it to access other software on the workstation
 - Is special hardware required for dictation?
