

CMPT 371
Team 3
March 15, 2017

Meeting 4:30 pm – 5:00 pm

Purpose of meeting: Demonstrate the functionality of the software to Luxsonic

Group Members Present: Janelle, Mackenzie, Kyle, Heramb, Kyle, Nhi, Brianne, Jack, Ix

Meeting Location: S386

Summary:

- Grabbing, moving, brightness, contrast etc. is all in there now.
 - Discussion on the contrast depth for medical images—how important is it at this juncture?
 - Creating a contrast “window” to keep important information from vanishing on certain images
- Pointing to touch buttons—which hand gestures do/do not work? Should we expand the number that do work?
- When will the team be ready for radiologists to test?
 - Mid-to-late next week
 - Some professionals lined up
- Selection features will be implemented to make it easier for users to see what they’re doing
